**ACTION TAKEN ON STUDENT'S FEEDBACK**  
**SESSION:2021-2022**

1. Since the college is affiliated under Gauhati University and the parent university has taken the role to prepare the syllabus of UG program, the college has limited scope to change the course content. However, keeping in mind the necessity of introducing skill-based curriculum, the college has come up with several self-designed certificate courses in various departments.
2. The college runs a skill cell and career counselling cell to help students develop adequate soft skills necessary for adding on to their employability in different sectors of employment, apart from covering their core course. Many students have appeared for and cleared several state level and central level competitive exams after passing out. Alumni of the college have been employed in various sectors, including state government, private and corporate sectors. Many of the alumni are engaged in independent business ventures. We are proud to inform that, Assam State BJP President and MLA of Rangia Constituency, Mr. Bhabesh Kalita is also an alumnus of the college. The career counselling cell of the college organised a job fair in the college premises in collaboration with ICA Edu Skills, Panbazar, Guwahati, on 30th April 2023, wherein eight reputed companies participated, and interviews were held in both online and offline modes. More than 40 participants took part in the job fair.
3. The college is not in back-foot position regarding the collaboration with industry and other academic institutions. The college has signed MoUs with Bajaj Consumer Care Ltd. with the purpose of creating a Miyawaki Forest/ Medicinal Tree Plantation inside the college campus for reducing the carbon footprint of the area and for creating a repository of important medicinal plants. It is to be noted that this forest is the largest Miyawaki forest created in the entire state of Assam, encompassing an area of around 2000 sq. ft. Moreover, the college has also signed an MoU with ICT Academy. The college has an MoU with SS Technologies for utilising ERP Software to handle all admission and administration related activities of the college. An MoU has also been signed with IIT Guwahati under the "Unnat Bharat Abhiyan". Under this MoU, students and faculty members of the college can interact with the faculty members and research scholars of IITG. Students at the college also get to visit the library and laboratory facilities of IITG, to enhance their knowledge and pique their interest in various fields apart from their regular curriculum.
4. The active alumni association of NGC is always associated with the college fraternity in various developmental activities, meant for overall upliftment of the college and the adjoining areas. They help the college fraternity to organise awareness programs like Nasha Mukti Abhiyan, relief activities near the village namely Police Reserve during floods and other community social outreach programs.
5. The college has developed two skill development centres, one pertaining to training and skill development related to garments manufacture and another one related to the development of IT skills. A well sophisticated beauty therapy lab has also been established

in B.Voc department to run certificate course. Another certificate course on tourism and hospitality management is also run in this centre.

6. The college fraternity feels the need to continually strive towards the betterment of not only the students but also of the faculty members. This involves both academic and personal development of the faculty members so that they have an overall holistic development, improving personal as well as professional quality of life. Keeping this in view, the college has established a Yoga Cell inside the college premises. This cell is meant to act as a centre for mental and physical rejuvenation of the members of the college fraternity. Yoga camps and International Yoga Day are regularly organised by the Yoga cell and there is active participation seen from both the students as well as the teaching fraternity of the college. Faculty Development Programs and webinars for the faculty members are also organised in collaboration with ICT Academy and Spoken Tutorial, IIT Bombay.
