

Educational Trip of 5th Semester (Major) to Manas National Park

The educational trip to Manas National Park, located in the picturesque state of Assam, was organized on 09/11/2018. This trip aimed to provide students with an immersive learning experience in one of India's most biodiverse and ecologically significant protected areas. The trip embodied the department's commitment to environmental education, thereby, empowering students to become stewards of the environment and champions for biodiversity.

The trip commenced with an exhilarating wildlife safari through the pristine landscapes of Manas National Park. Students had the opportunity to spot a wide array of wildlife species, including elephants, rhinoceroses, deer, and various bird species, in their natural habitat. In addition, the students also had the opportunity to explore the park's diverse ecosystems, including lush forests, grasslands, wetlands, and riverine habitats. These immersive experiences allowed students to observe plant and animal species up close and learn about their ecological roles and adaptations.
