

**Educational Trip of 5<sup>th</sup> Semester (Major) to Chandubi, Assam on**  
**09/11/2019**

The educational trip to Chandubi, situated in the picturesque Kamrup district of Assam, was organized for the 5th-semester students as part of their major curriculum. The primary aim of the trip was to provide students with a comprehensive understanding of the geographical, environmental, and socio-economic aspects of the region, thereby complementing their academic studies and practical skills.

The trip commenced with a detailed study of the geographical features and geological formations of Chandubi. A focal point of the trip was the exploration of Chandubi Lake, a natural water body renowned for its scenic beauty and ecological significance. In addition to academic pursuits, the trip included recreational activities such as trekking and boating, amidst the scenic landscapes of Chandubi. Students also had the opportunity to engage with the indigenous communities residing in the vicinity of Chandubi Lake.
