

Participation in Science Model Exhibition on 28/02/2020

On National Science Day, celebrated on 28th February each year to commemorate the discovery of the Raman effect by Sir C.V. Raman, Science Forum, North Gauhati College organized a Science Model Exhibition to showcase the innovative and creative endeavours of students in the field of science. The exhibition provided a platform for students to demonstrate their scientific knowledge, creativity, and problem-solving skills through the creation of interactive science models.

Students from schools and from different departments of the institution enthusiastically contributed their projects, spanning a wide range of scientific disciplines, including botany, physics, chemistry, geography, anthropology and, zoology. Each participant or team meticulously designed and constructed their models, incorporating principles of scientific inquiry and experimentation. In this regard, two student teams from the Department of Botany secured first and second position, making the faculties proud of their achievement. Additionally, Aditya Boro, a student of 2nd semester, Botany Department secured first position in the Speech competition.

Winning Team

First Position Team with their model "Mini Cooler"

Second Position Team with their model "Sewage Treatment Plant"
