

## **Parent Teachers Meet Programme on 13/04/2021**

On the 13th of April, 2021, the Department of Botany hosted a significant event, the Parent-Teacher Meeting (PTM) Program, to foster collaboration and communication between educators and parents. The primary goal of the PTM was to provide a platform for open and constructive dialogue between parents and teachers regarding the academic progress, behavior, and overall well-being of the students. Another objective was to address any concerns or queries that parents may have regarding their child's performance and learning challenges.

Group sessions as well as individual meetings were arranged to discuss any specific concerns. Parents were given valuable feedback from the teachers regarding their child's progress and areas for improvement, along with practical strategies for supporting their learning journey at home. At the end of the meeting, parents were handed a feedback form, where they filled up the questionnaire diligently.
