

One day workshop on “Sustainable Livelihood with Mushroom Cultivation” on 04/01/2022

A one-day workshop on "Sustainable Livelihood with Mushroom Cultivation" was conducted on the 4th of January, 2022, with the aim of promoting sustainable agricultural practices and empowering participants with the knowledge and skills necessary for mushroom cultivation as a means of generating income and improving livelihoods.

The keynote speaker of the programme was Dr. Pranjal Baruah., Founder Secretary General of Mushroom Development Foundation. He provided insights into various aspects of the nutritional value of mushrooms, mushroom farming, including substrate preparation, spawn inoculation, cultivation techniques, pest management, and harvesting practices.

The workshop featured sessions conducted by experienced professionals and experts in the field of mushroom cultivation. Participants had the opportunity to actively engage in tasks such as preparing mushroom bags, inoculating spawn, and maintaining optimal growing conditions. The programme also witnessed the inauguration of the mushroom house, maintained by the Department of Botany.

Overall, the workshop was a success, thanks to the collaborative efforts of organizers, resource persons, and enthusiastic participation from the attendees. It exemplified the potential of capacity-building initiatives in driving positive change and promoting sustainable livelihoods in rural and semi-urban communities.
