

## An outreach programme to Gauhati University on 02/06/2022

The 9th H.K Baruah Memorial Lecture, organized by the Department of Botany at Gauhati University, served as a platform for students to engage with esteemed scholars and professionals in the field of botany. This event aimed to foster intellectual curiosity, promote academic discourse, and honour the legacy of H.K Baruah, a distinguished figure in the field of Botany.

The keynote lecture was delivered by Prof. Krishnendu Acharya, Department of Botany, University of Calcutta, whose expertise and insights provided valuable perspectives on contemporary issues and advancements in the discipline. The event featured interactive sessions where students had the opportunity to engage with the speaker, ask questions, and participate in discussions. It was followed by a visit to the Botanical Garden of Gauhati University, where students learned about the plant conservation efforts made in the garden.
